

“ K-1 MARKER”™

Surface mount - reboundable - object marker

Model #: TD5215

Durable Marking of Median Islands

MUTCD type OM2-2H

- **Designed to mark obstructions near or within a roadway. Typical uses include marking of islands, curbs or neutral areas.**
- **The impact-resistant elastomer Boomerang base is designed to withstand the extremes of heat or cold and will not crack or split.**
- **Mounts quickly to asphalt or concrete surfaces using adhesives.**
- **Highly reboundable Boomerang Base transfers the stress from impacts to the Base, giving much longer service life to the HDPE post**
